

# Gordon Research Conferences

## *frontiers of science*

Announcing the 2020 Gordon Research Conference on:

## Flow and Transport in Permeable Media

Interactions Between Fluids, Elements, Materials, Energy and Life in Porous and Fractured Media

### **Date and Location:**

July 19-24, 2020

Les Diablerets Conference Center  
Les Diablerets, Switzerland

### **Organizers:**

Chair: Tanguy LeBorgne

Vice Chair: Marc A. Hesse

- **Micro-Scale Fluid Dynamics and Interfaces**
- **Structural Disorder, Complex Fluids and Upscaling**
- **Deformable Porous and Fractured Media**
- **CO<sub>2</sub> Sequestration**
- **Innovative Sensors and Data Assimilation for Monitoring Subsurface Processes**
- **Biogeochemical Processes and Reactive Transport**
- **Soil Processes from Micro to Continental Scales**
- **Fractures, Hydromechanics and Seismicity**
- **Coupled Flow and Transport in Ice and Planetary Systems**

### **Seminar (GRS):**

*Active and Passive Transport Processes in Biological and Geophysical Flows*

More details and online application are available at:
